## Introduction

The California English Language Development Test (CELDT) was developed by CTB/McGraw-Hill (CTB) in conjunction with the California Department of Education (CDE) Standards and Assessment Division in response to legislation requiring school districts to assess the English language proficiency of all students with a primary language other than English (English learners) upon initial enrollment and annually. As stated in California Assembly Bill 748 (Statutes of 1997), the Superintendent of Public Instruction was required to select or develop a test that assesses the English language development of pupils whose primary language is a language other than English. Subsequently, California Senate Bill 638 (Statutes of 1999) required school districts to assess the English language development of all English Learners. The CELDT was the test designed to fulfill these requirements.

The California *Education Code* states the purpose of the CELDT.

The test shall be used for the following purposes: (1) To identify pupils who are limited English proficient. (2) To determine the level of English language proficiency of pupils who are limited English proficient. (3) To assess the progress of limited-English-proficient pupils in acquiring the skills of listening, reading, speaking, and writing in English (Section 60810.d).

The testing window for Annual Assessment begins on July 1 and ends on October 31. Initial Identification testing may be conducted at any time during the year (July 1 to June 30).

Responding to these requirements, CDE, with the approval of the Superintendent of Public Instruction and the State Board of Education (SBE), developed the CELDT. The test assesses English Learners in the skill areas of Listening/Speaking, Reading, and Writing. The test is administered to four separate grade span levels (K-2, 3-5, 6-8, and 9-12).

During the past five years of operational testing, CTB and CDE have received invaluable input from classroom teachers, administrators, and the SBE regarding critical issues for the CELDT Program. These recommendations have guided the improvement of the assessment and other aspects of the program. The blueprint for the CELDT was developed by a number of committees representing California English Language Development professionals and those concerned with English Language Arts. The first CELDT Field Test took place in the fall of 2000 with a volunteer population of California schools persuaded to administer the test to a small number of classes. The 2001-2002 Edition (Form A) then was created using the Field Test items and data.

The scale and proficiency cut scores created for the CELDT assessment were based on the 2000 Field Test and 2001-2002 Edition (Form A) data. Because the 2001-2002 Edition (Form A) operational administration did not involve any common items or groups for establishing a vertical scale, the recalibrated scale was not strictly speaking vertically linked. Forms B, C, D and E used in 2002, 2003, 2004, and 2005, respectively, were each anchored to the 2001-2002 Edition (Form A) scale.

## **2001-2002 Edition (Form A)**

The CELDT Field Test was developed between 1999 and 2000. It contained 70% LAS items (Listening/Speaking, and Writing), and 30% new items (Reading). The Reading test was newly developed in alignment with the California English Language Development Standards. The Listening/Speaking items were administered individually while the Reading and Writing items were administered in groups.

A Standard Setting was conducted March 30 – April 2, 2001, to set proficiency cut scores for each content area and grade span based upon the Field Test data. CTB and CDE made the decision to assign identical cut scores for grade spans 3-5, 6-8 and 9-12 across all proficiency levels. Within the first grade span, Kindergarten, grade 1, and grade 2 were assigned separate Listening/Speaking proficiency cut scores. Second grade Reading and Writing were also assigned unique cut scores. These cut scores have remained unchanged since 2001 through the present administration.

## **2002-2003 Edition (Form B)**

The 2002-2003 Edition (Form B) operational administration for Annual Assessment students took place between July 1 and October 31, 2002. Testing for initial identification continued until June 30, 2003. The 2002-2003 Edition (Form B) was the first form to test exclusively in these dates, and all subsequent operational CELDT forms have followed the same pattern of testing.

Another major improvement to the CELDT program was the creation of an operational-only version of the test for Initial Identification. Starting with the 2002-2003 Edition (Form B), this shorter version of the test was administered during the Annual Administration window and continued to be used for Initial Identification testing until July 30 of the following year. This version was also used for students taking the Large Print or the Braille version of the test.

A shorter Reading test was field tested in the 2002-2003 Edition (Form B) containing 35 items rather than 45. The intention of this reduction was to minimize testing time without sacrificing the validity and reliability of student scores. The format of the Reading section was also modified, with the inclusion of fewer stop points for the administration of sample items. The Extended Writing item was redesigned to elicit sufficient writing to show students' proficiency. Less than 1% of students achieved the highest score-point of 5/5; therefore it was appropriate to create a simpler 4-point rubric.

## **2003-2004 Edition (Form C)**

A Field Test was administered during the Winter of 2003. This Field Test was composed of new items created specifically for the CELDT (except for the Oral Vocabulary) and featured a 4-Picture Narrative item to replace the Story Retelling in Speaking. Accompanying these new items were new scoring rubrics designed to lessen the administrator demands and shorten testing time. The Field Test items focused more on performance based tasks and a language function approach. Training was provided for all administrators to ensure the validity and reliability of student scores and to reduce the burden of administrators needing to internalize the new scoring rubrics.

The most significant change to the test starting with the 2003-2004 Edition (Form C) was the complete elimination of LAS items, and the inclusion of only CDE owned items. Through gradual replacement and the process of field testing, 100% of the CELDT was, and continues to be, CDE owned.

## **2004-2005 Edition (Form D)**

The Annual Administration of the 2004-2005 Edition (Form D) took place between July 1 and October 31, 2004, while testing for Initial Identification ran from July 1, 2004 to June 30, 2005. The 2004-2005 Edition (Form D) received only minor modifications including new field test items and an increased number of forms. In order to comply with Title III requirements, the decision was made to begin the process of breaking Listening and Speaking into separate content areas. This meant a slight re-shuffling in the number of items in each content area. Separate Listening and Speaking raw-scores were reported in the General Research Tape (GRT), but were not scaled and given cut scores until the Standard Setting in March of 2006. Also reported in the GRT was a Comprehension scale-score, taken as the weighted average of the Listening and Reading scores. As with Listening and Speaking separately, proficiency cut scores were not set until 2006.

## **2005-2006 Edition (Form E)**

For the 2005-2006 (Form E) operational test, students were scored in the skill areas of Listening/Speaking, Reading, and Writing. The resulting scores from these skill areas were then combined to create an Overall score. The Listening/Speaking portion of the test included a Listening portion of the test administered in groups and a Speaking portion of the test administered individually. The Reading and Writing skill areas were given in group administrations.

The 2005-2006 Edition (Form E) was the transitional form between the original CELDT scale and the new CELDT scale that was created at the March 2006 Standard Setting prior to the 2006-2007 Edition (Form F). In addition to the usual number of field test items, 2005-2006 Edition (Form E) contained embedded common-scale items for each content area. Within a given grade span and content area approximately 12 items were included from the operational test from the grade span above and 12 items from the grade span below. The lowest grade span (K-2) contained only items from above, while the highest grade span (9-12) contained only items from below. In selecting these

common items, CTB included a content-representative sample of items from the off-level grade span. This content and standards-based focus was meant to ensure appropriate linkages would be created during calibrations for the common scale.

In developing the test forms with common scale items, the effort was made to avoid potential position affects and to include all relevant examples and directions to ensure item comparability across grades. Test Characteristic Curves (TCCs) for both on- and off-level grade spans were compared, and common items were selected that created a TCC generally falling between the two grade span TCCs.

To ensure a representative sample population, all 2005-2006 Edition (Form E) books and items were taken by all CELDT test takers as well as a sample of English speakers. The purpose of this broad sampling was to (a) ensure an accurate and representative calibration and (b) conduct the common scaling prior to the Standard Setting.

Unlike previous administrations, which required only 10% of student responses to the Writing constructed-response (CR) items to be scored twice, 100% of the student responses for the 2005-2006 Edition (Form E) were scored by independent scorers and discrepancies resolved by a third reader. The purpose of this procedural modification was to ensure the reliability and validity of student CR scores for all future forms.

## **Future CELDT Steps**

Results of a study conducted by members of the CELDT Technical Advisory Group (TAG) suggest that changes to the CELDT blueprint may help to align the test more closely with English Language Development Standards. To address this need for making adjustments to the blueprint while simultaneously maintaining the integrity of the common scale and proficiency cut scores, there will be a process of gradual replacement. This effort will add more items at the appropriate difficulty levels that assess the standards recommended by the TAG without impacting testing time or test validity.

The CELDT has undergone significant improvements over the past five years, and it will continue to evolve to meet the changing needs of the English learner population and the state of California. These changes will be incorporated into the structure of the test without altering the psychometric rigor or comparability of each form.

## **Overview of the Technical Report**

This report describes the test development and psychometric qualities of the CELDT, 2005-2006 Edition (Form E)<sup>1</sup> including test design, proficiency definition, scaling and equating, decision consistency and accuracy, and summary results. Appendices provide specific results of the 2005-2006 operational administration.

---

<sup>1</sup> Field testing of items for the full 2006-7007 Edition (Form F) was conducted during the operational testing of 2005-2006 Edition (Form E). The 2006-2007 (Form F) test design and psychometric qualities will be discussed in the CELDT 2006-2007 Edition (Form F) technical report.

Appendix A provides maps of the items and their distribution in test booklets. Appendix B includes summary statistics for all operational administrations since the 2001-2002 Edition (Form A), including the 2005-2006 Edition (Form E). Appendix C describes the relation between student performance on the skill areas of Listening, Speaking, Reading, and Writing. Appendix D provides information on the accuracy and consistency of the proficiency-level classifications. The scoring tables, or Raw-Score-to-Scale-Score Conversion tables, are presented in Appendix E, and the frequencies of scores at each score point are reported in Appendix F. Student demographic information is reported in Appendix G by home language and ethnicity.

Item statistics are reported in Appendices H–M, including classical item analyses, comparisons of item difficulty between Annual Administration and Initial Identification data, item-type correlations, inter-rater reliability for CR items, and the operational item parameters. Appendix N provides a graphic representation of each form's TCC and standard error of measurement (SEM), and Appendix O reports the specifications used in the development of the CELDT 2005-2006 Edition (Form E). Mock-ups of the performance reports are illustrated in Appendix P.

CTB endeavored to follow the testing guidelines published by the American Educational Research Association, American Psychological Association, and the National Council on Measurement in Education (1999). Information regarding documentation and compliance can be found in Appendix Q.

This document provides technical details on the operational test for the 2005-2006 Edition (Form E) only. As such, it is an extension of previous technical reports. For information regarding the CELDT Standard Settings, refer to the 2001 *California English Language Development Bookmark Standard Setting Technical Report* and the 2006 *California English Language Development Bookmark Standard Setting Technical Report* (CTB/McGraw-Hill, 2006, 2001). For the 2000 field test or the 2001 operational test, refer to the *Technical Report for the California English Language Development Test (CELDT) 2000–2001* (CTB/McGraw-Hill, 2001). For information regarding the operational tests since, refer to subsequent technical reports (CTB/McGraw-Hill, 2002b, 2003, 2004a, 2005).

## CELDT Development and Structure

This portion describes the test construct in terms of content and structure of the CELDT as well as descriptions of overall English language proficiency and the cut scores used to define proficiency on the test scale.

### Test Forms and Structure

Each booklet in the 2005-2006 Edition (Form E) series was divided into the three skill areas of Listening/Speaking, Reading, and Writing, following parallel specifications to the 2004-2005 Edition (Form D). All items included in the 2005-2006 Edition (Form E) operational test were administered in the 2004-2005 Edition (Form D) either as operational or field test items. New items developed for the 2005-2006 Edition (Form E) were included in each booklet as field test items. Items from adjacent grade span(s) were also included in most forms to provide data to construct a common scale. The layout of the booklets varied, with every booklet in the series containing the operational test for the given grade span and also containing embedded field test items and/or common scale items for the three skill areas. For detail on the item distributions across forms, see Appendix A. For detail on the number of questions in each operational test and field test item section, see Appendix O.

For Grade Span 1 (Kindergarten-Grade 2), there were a total of 12 distinct booklets. There were 6 booklets for Kindergarten and Grade 1 (E1-E6), consisting only of the Listening/Speaking test. Kindergartners and first graders were not administered the Reading or Writing portions of the CELDT, and their overall scores were based solely on the results of their Listening/Speaking test. Each of the 6 booklets contained the same operational items, as well as unique embedded field test and/or common scale items created for the 2005-2006 Edition (Form E). (See Table 1.)

There were 12 booklets for Grade-2 students; in addition to the same Listening/Speaking items administered to Kindergarten and Grade 1, the Grade-2 booklets also contained Reading and Writing tests. Booklets for test forms E1-E6 contained Listening/Speaking sections identical to the Kindergarten and Grade-1 tests, as well as operational Reading and Writing items and Writing field test items in E1. Booklets E7-E12 contained only the operational Listening/Speaking items, as well as operational, field test, and/or common scale items for both Reading and Writing items.

Grade Spans 2 and 3 (3-5 and 6-8, respectively) had parallel booklet layouts. Each grade span had 14 booklets (E1-E14). Within each grade span, one set of operational items was used across all 14 booklets. In addition to the operational items, booklets E7-E8 contained embedded field test and/or common scale items for Listening/Speaking and booklets E1 and E9-E14 contained field test and/or common scale items for Reading and Writing.

Grade Span 4 (for grades 9-12) had 12 booklets, called E1-E12. One set of operational items was used across all 12 booklets. In addition to the operational items, booklets E1-

E7 contained embedded field test and/or common-scale items for Listening/Speaking, and booklets E1 and E8-E12 contained field test and/or common-scale items for Reading and Writing.

Regarding the items field tested in booklets E1–E12 or E14 for each grade span, it should be noted that each booklet usually contained different embedded field test items, though there were some cases of overlap. Forms E1–E12 or E14 were randomly distributed across districts, and specific precautions were taken to ensure that no more than 30% of the sample for any field test or common-scale item came from a single school district.

Each individual question in each skill area had a set number of obtainable score points. For most questions, either 0 or 1 score point could be obtained on the question. For some questions, the number of score points was higher; in such cases the scoring was based on a scoring rubric. This was the case for the *constructed response*—*Speech Functions* questions in Speaking with three score points (0, 1, or 2); for the *constructed response*—*Choose and Give Reasons* questions in Speaking with three score points (0, 1, or 2); for the *constructed response*—*4-Picture Narrative* questions in Speaking with five score points (0, 1, 2, 3, or 4); for the *constructed response*—*Writing Sentences* questions in Writing with four score points (0, 1, 2, or 3); and for the *constructed response*—*Short Compositions* questions in Writing with five score points (0, 1, 2, 3, or 4). For each section the points achieved on each question were then summed to provide a total raw score. The total raw score had a particular scale score associated with it, based on the raw score and the item parameters.

For Listening/Speaking on the 2005–2006 (Form E) operational CELDT, in Grade Span 1, there were dichotomous items with two score points (0 or 1), two *Choose and Give Reasons* question with three score points (0, 1, or 2), and one *4-Picture Narrative* question with five score points (0, 1, 2, 3, or 4). In sum, the Listening/Speaking section of the test for Grade Span 1 had up to 45 raw score points.<sup>2</sup> For Grade Spans 2–4, there were 33 dichotomous items with two score points (0 or 1), four *Speech Functions* questions with three score points (0, 1, or 2), two *Choose and Give Reasons* questions with three score points (0, 1, or 2), and one *4-Picture Narrative* question with five score points (0, 1, 2, 3, or 4). In sum, the Listening/Speaking section of the test for grade spans 2, 3, and 4 had up to 43 raw score points.<sup>3</sup>

For Reading on the 2005–2006 (Form E) operational CELDT, at each grade span, there were 35 dichotomous items with two score points (0 or 1). In sum, the Reading section of the test had up to 35 raw score points.

For Writing on the 2005–2006 (Form E) operational CELDT at each grade span, there were 19 dichotomous items with two score points (0 or 1), four *Sentences* questions with four score points (0, 1, 2, or 3), and one *Short Composition* question with five score

## Proficiency

The five proficiency levels used with the CELDT are termed Beginning, Early Intermediate, Intermediate, Early Advanced, and Advanced. Descriptions of student performance at each level were developed to define what students know and are able to do (CTB/McGraw-Hill, 2002a). These five proficiency levels are defined on the test scale by cut scores. Cut score information is reported in Table 2, and Proficiency Level Descriptions are reported in Table 3.

Cut scores and Proficiency Level Descriptors remained the same for The 2005-2006 Edition (Form E) as in previous operational CELDT administrations. For more information on the development of the cut scores and Proficiency Level Descriptions, please refer to the *Technical Report for the California English Language Development Test (CELDT) 2000–2001* (CTB/McGraw-Hill, 2002a).

<sup>4</sup>  $(19 \times 1) + (4 \times 3) + (1 \times 4)$

**Table 3 CELDT Proficiency-Level Descriptions**

<b>Proficiency Level</b>	<b>Description</b>
Advanced	Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and academic demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are necessary.
Early Advanced	Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in other academic areas.
Intermediate	Students performing at this level of English language proficiency begin to tailor the English language skills they have been taught to meet their immediate communication and learning needs.
Early Intermediate	Students performing at this level of English language proficiency start to respond with increasing ease to more varied communication tasks.
Beginning	Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They may be able to respond to some communication tasks.

## **Administration of the 2005-2006 Edition (Form E)**

The operational administration of the CELDT 2005-2006 Edition (Form E) was conducted during 2005–2006. The Annual Administration data was collected between July 1 and October 31, 2005 ( $N=1,326,625$ ); Initial Identification data was collected throughout the year ( $N=418,450$ ). Initial data were collected from students whose home language is a language other than English, who have never taken the CELDT, and who took the test between July 1, 2005, and June 30, 2006. Students who took the CELDT for purposes of Initial Identification after July 1, 2005, did not retake the test during the 2005 annual administration.

### **Test Summary Statistics**

Tables 4 and 5 summarize the operational test scale scores for the 2005-2006 Edition (Form E) Annual Assessment. These statistics are based on data from the General Research Tape (GRT).<sup>5</sup> This student data file is a compilation of all score, biographical, and programmatic data for a given administration. An overview of summary statistics from the CELDT 2001-2005 Editions (Forms A-D) is available in Appendix B. Descriptive statistics for each skill area (Listening/Speaking, Reading, and Writing) are provided. Correlations between skill area scores are detailed in Appendix C.

Tables 6 and 7 summarize the operational test scale scores for the 2005-2006 Edition (Form E) Initial Identification. These statistics are also based on data from the GRT. Descriptive statistics for each skill area (Listening/Speaking, Reading, and Writing) are provided in Appendix B. Correlations between skill area scores are detailed in Appendix C.

---

<sup>5</sup> The GRT data includes all 2005-2006 Edition (Form E) data received at CTB/McGraw-Hill prior to November 15, 2005 (testing completed prior to October 31, 2005) without exclusions.

**Table 4 2005–2006 Edition (Form E) Summary Statistics by Grade, Annual Assessment Data**

Grade	N	Listening/Speaking		Reading		Writing		Overall

\* N-count for Grade Span K-2 is 264223 overall, but for Reading and Writing is administered to only Grade 2 (N=20328).

## Classification Consistency and Accuracy

As is common in criterion-referenced tests, the accuracy and consistency of decisions made in classifying students into proficiency levels is very important. Decision accuracy is the extent to which the test's classification of examinees into mastery levels agrees with the examinees' true classification. The examinees' true scores and therefore true classification are not known but can be modeled.

Decision consistency is the extent to which the test classification of examinees into mastery levels agrees with classifications due to a hypothetical parallel test. Again, the examinees' scores on the second form are modeled. Most popular indices are decision consistency at each cut score, overall decision consistency across all cut scores, and coefficient kappa. The last index measures how much the test contributes to the classification of examinees into mastery levels over and above chance classifications.

The Livingston-Lewis (1995) methodology was used to calculate classification consistency and accuracy on the CELDT 2005-2006 Edition (Form E) results. The Livingston-Lewis procedure utilizes a beta-binomial model, thus requiring two steps. First, proportion-correct true scores are fitted to a 4-parameter beta distribution. Then, the binomial distribution is used to estimate classification accuracy and consistency. Documentation for CTB/McGraw-Hill's implementation of this procedure was written by Chen and Finkelman (2004).

Results of classification consistency and accuracy are reported in Appendix D by grade span and skill area. The overall decision accuracy and consistency represent classification across all cut scores and are therefore lower than would be expected for individual cut scores.

## Scoring Tables

Tables for the conversion of the 2005-2006 Edition (Form E) raw scores (number correct) to scale scores are provided in Appendix E.

## Scale Score Distributions

The distribution of scale scores for Annual Assessment and Initial Identification Listening/Speaking, Reading, and Writing data for each of the four grade spans is reported in Appendix F.

## Student Population

The 2005–2006 (Form E) Annual Administration operational test was administered to all students in California whose home language was a language other than English and who had previously taken the CELDT. During this administration 1,326,625 students took the CELDT for this purpose.

The 2005–2006 (Form E) Initial Identification operational test was administered to all students in California whose home language was a language other than English and who had not taken the CELDT previously. During this administration, 418,450 students took the CELDT for this purpose.

Student demographic characteristics are reported in Appendix G by home language and ethnicity.

## **Item Analysis**

Classical item analyses for each of the operational Listening/Speaking, Reading, and Writing items were conducted. In addition, the field tested Listening/Speaking, Reading, and Writing items were studied. The results of both the operational and field test item analyses are located in Appendix H.

In addition to the standard item analyses, operational test item p-values and correlations between multiple choice (MC) and constructed response (CR) items were also studied. A comparison of item difficulty (p-value) was made between Annual Assessment and Initial Identification data and is reported in Appendix I. Correlations between MC, dichotomous CR, and CR items are available in Appendix J.

## **Reliability**

The reliability for a particular group of students' test scores is the extent to which the scores would remain consistent if those same students were retested with another parallel version of the same test, written to measure the same set of skills. If the test includes constructed-response questions, the reliability is the extent to which the students' scores would remain consistent if both the questions and the scorers were changed.

Note that Speaking CR items are scored by local raters who have been trained in reliable scoring by CTB-certified trainers. All Writing CR items are officially scored by two professional CTB raters; additional data on rater consistency and reliability for handscored, Writing CR items are available in Appendix K.

### ***Reliability Coefficient***

The reliability coefficient is the correlation between the students' scores and the scores that would result if the students were retested with a parallel form of the same test (and scored by different scorers, if the test includes constructed response questions). The reliability coefficient, in fact, cannot be computed directly unless the student actually takes two parallel forms of the same test. However, with some reasonable assumptions, it can be estimated from the students' responses to a single version of the test. Like other correlations, the reliability coefficient can vary substantially from one group of students to another. It tends to be larger in groups that are more diverse in the ability measured by the test and smaller in groups that are more homogeneous in the ability measured.

The reliability coefficients for the CELDT 2005-2006 Edition (Form E) are between 0.86 to 0.89 across all grades and subject areas, and these are typical coefficients for assessments of these lengths. Please see Table 8 for reliabilities for each skill area of the test by grade span.

**Table 8 2005–2006 Operational Test Reliabilities\***

<b>Skill Area</b>	<b>Number of Items</b>	<b>Grade Span</b>				
		K-2: Grades K-1	K-2: Grade 2	3-5	6-8	9-12
Listening/ Speaking	40	0.87	0.85	0.85	0.85	0.87
Reading	35	NA	0.88	0.89	0.88	0.88
Writing	24	NA	0.88	0.87	0.86	0.87

\*Cronbach's Alpha

### **Standard Error of Measurement**

The standard error of measurement (SEM) is a measure of how much students' scores would vary from the scores they would earn on a perfectly reliable test. The SEM is the difference between each student's score and the score that a student would earn on a perfectly reliable test. If it were possible to compute the error of measurement for each student's score, in a large group of students, these errors of measurement would have a mean of zero. The standard deviation of the errors of measurement would be an indication of how much the errors of measurement are affecting the students' scores. This statistic is the standard error of measurement. The SEM is expressed in the same units as the test score, whether they are in raw-score or scale-score points. It is important to note that the SEM tends to be much more consistent across different groups of students than the reliability coefficient. In a large group of students, about two-thirds of the students will earn scores within one SEM of the scores they would earn on a perfectly reliable test.

The SEM is the margin of error associated with an examinees' score. The range of standard errors for the CELDT 2005-2006 Edition (Form E) is between 14 and 21 points across all grades and subject areas in scale score units. In general, this translates into an error band of about one to two raw score points, depending on the students' score. For example, if a student received a raw score of 25 with a standard error of 1 point, on retesting, the student might have attained a score between 24 to 26 about two-thirds of the time. It is important to remember that assessments are not perfectly reliable and only offer an estimate of what the student is capable of in a specified domain of knowledge. CELDT standard errors of measurement for each skill area and overall are shown in Table 9 below. For scale score SEM for each skill area, see Appendix E.

The reliability from year to year is maintained by equating each new test form to a previous form, thus producing a relationship in which one can compare students' proficiency levels across years.

**Table 9 2005-2006 Operational Test Standard Errors of Measurement (SEM)\***

Grade Span	SEM (Scale Score Units)			
	Listening/ Speaking	Reading	Writing	Overall
K-2: Grades K-1	14.65	NA	NA	14.65
K-2: Grade 2	18.55	16.86	17.62	17.91
3-5	20.25	17.27	18.17	19.03
6-8	20.63	16.50	16.84	18.76
9-12	16.65	16.58	15.85	16.43

\* SEM for each skill area calculated according to the formula:  $SEM = SD\sqrt{1 - \alpha}$ , where  $SD$  represents the standard deviation and  $\alpha$  represents the test reliability. Overall Standard Error of Measurement calculated

according to the formula:  $SEM_{all} = \sqrt{\frac{2(SEM_{LS})^2 + SEM_{RD}^2 + SEM_{WT}^2}{4}}$ .

## Inter-rater Reliability

Many monitoring techniques were used to ensure scoring reliability and accuracy. Scoring guides were used with reader training, and monitoring of readers continued through the scoring process. Supervision included empirical determinants of reader readiness such as check sets, read behinds, and double-blind reads.

### Scoring Procedures

First, check sets were distributed daily to the table leaders and the item readers. Check sets included papers selected by the scoring supervisor that closely matched the established scoring rubrics and guidelines. Several check sets were administered each day. These check sets were used to monitor scoring accuracy and to maintain the established rubrics and guidelines. Readers whose scores differed from the check-set papers were removed from live scoring and given additional training followed by another qualifying round. Readers unable to re-qualify were dismissed from scoring. Exact agreement between reader scores and check-set scores was obtained on approximately 80 to 100 percent of the check-set papers across all grade levels and content areas.

Second, the read-behind procedure was used to help readers maintain consistent scoring on 100% of the items scored. On a daily basis, table leaders read and scored a random selection of each reader's scored papers. When there was close agreement of the two scores, the table leader was able to give feedback that enhanced the reader's confidence and ability to score quickly and accurately. On the other hand, if the reader's scores were different from those of the leader, guidance necessary to refocus effort was provided to the reader. This read-behind procedure allowed for early detection of aberrant scores and their correction.

In addition, a significant number of papers in each content area were scored by a second reader to establish inter-rater reliability statistics for all constructed-response items. This procedure is called a double-blind read because the second reader does not know the first reader's score. All readers participated in the blind second reading. Double-blind reads were used to maintain high rates of inter-rater reliability over time. Appendix K provides the results of inter-rater agreement study for CR items.

## Item Response Theory (IRT) Analyses

Calibration and scaling of the 2005–2006 (Form E) operational test data was accomplished using the PARDUX and FLUX computer programs (Burkett, 1999, 1998). This proprietary software, developed at CTB/McGraw-Hill, enabled scaling and linking of complex assessment data such as that produced for the CELDT.

Because the characteristics of MC and CR items are different, two item response theory models were used in the analysis of the data. The three-parameter logistic model (3PL; Lord & Novick, 1968; Lord, 1980) was used in the analysis of selected response (multiple choice) items. In this model, the probability that a student with scale score  $\theta$  responds correctly to item  $i$  is

$$P_i(\theta) = c_i + \frac{1 - c_i}{1 + \exp[-1.7a_i(\theta - b_i)]}$$

where  $a_i$  is the item discrimination,  $b_i$  is the item difficulty, and  $c_i$  is the probability of a correct response by a very low-scoring student.

For analysis of the constructed response items in the CELDT, the two-parameter partial credit model (2PPC; Muraki, 1992; Yen, 1993) was used. The 2PPC model is a special case of Bock's (1972) nominal model. Bock's model states that the probability of an examinee with ability  $\theta$  having a score at the  $k$ -th level of the  $j$ -th item is

$$P_{jk}(\theta) = P(x_j = k-1|\theta) = \frac{\exp Z_{jk}}{\sum_{i=1}^{m_j} \exp Z_{ji}},$$

where

$$k = 1, \dots, m_j, \text{ and}$$

$$Z_{jk} = A_{jk}\theta + C_{jk}.$$

For the special case of the 2PPC model used here, the following constraints were used:

$$A_{jk} = \alpha_j(k-1),$$

and

$$C_{jk} = -\sum_{i=0}^{k-1} \gamma_{ji}, \text{ where } \gamma_{j0} = 0,$$

where  $j$  and  $\gamma_{ji}$  are parameters freely estimated from the data. The first constraint implies that higher item scores reflect higher ability levels and that items can vary in their discriminations. The 2PPC model estimates a total of  $m_j$  independent item parameters; for each item there are  $m_j$  independent  $\gamma_{ji}$  parameters and one  $\alpha_j$  parameter. See Appendices L-N for item parameter statistics, test characteristic curves, and conditional standard errors from the 2005-2006 (Form E) test.

### **Goodness-of-Fit**

Goodness-of-fit statistics were computed for each item to examine how closely the item's data conform to the item response models (Yen, 1981). In this procedure, students are rank ordered on the basis of their  $\hat{\theta}$  values and sorted into ten cells with ten percent of the sample in each cell. Each item  $j$  in each decile  $i$  has a response from  $N_{ij}$  examinees. The fitted IRT models are used to calculate an expected proportion  $E_{ijk}$  of examinees who respond to item  $j$  in category  $k$ . The observed proportion  $O_{ijk}$  is also tabulated for each decile, and the approximate chi-square statistic

$$Q_{1j} = \sum_{i=1}^{10} \sum_{k=1}^{m_j} \frac{N_{ij}(O_{ijk} - E_{ijk})^2}{E_{ijk}},$$

$Q_{1j}$  should be approximately chi-square distributed with degrees of freedom ( $DF$ ) equal to the number of “independent” cells,  $10(m_j - 1)$ , minus the number of estimated parameters. The number of score levels for an item  $j$  are represented by  $m_j$ , so for the 3PL model  $m_j = 2$ , and  $DF = 10(2 - 1) - 3 = 7$ . For the 2PPC model,  $DF = 10(m_j - 1) - m_j = 9m_j - 10$ . Since  $DF$  differs between multiple choice and performance assessment (PA) items and between PA items with different score levels  $m_j$ ,  $Q_{1j}$  is transformed, yielding the test statistic

$$Z_j = \frac{Q_{1j} - DF}{\sqrt{2DF}}.$$

This statistic is useful for flagging items that fit relatively poorly.  $Z_j$  is sensitive to sample size, and cut-off values for flagging an item based on  $Z_j$  have been developed and were used to identify items for the item review. The cut-off value is  $(N/1500 \times 4)$  for a given test, where  $N$  is the sample size.

Model fit information is obtained from the Z-statistic. The Z-statistic is a transformation of the chi-square ( $Q_1$ ) statistic that takes into account differing numbers of score levels as well as sample size:

$$Z_j = \frac{(Q_{1j} - DF)}{\sqrt{2DF}}, \text{ where } j = \text{item } j.$$

The Z statistic is an index of the degree to which obtained proportions of students with each item score are close to the proportions that would be predicted by the estimated thetas and item parameters. These values are computed for ten intervals corresponding to deciles of the theta distribution (Burket, 1991). The Z statistic is used to characterize item fit. The critical value of Z is different for each grade or grade span because it is dependent on sample size.

## Scaling and Equating

CTB uses an equating design based on common items to maintain the CELDT scales. Common items are used to equate field test items onto the existing CELDT scales, and new operational test forms can then be selected from the field test items and maintain the scale. In this way, the new form can be constructed on the CELDT scales of the previous form. The use of common items has become an industry-standard procedure for ensuring that a common scale can be established across the test forms. The linking and equating is conducted using the procedure by Stocking and Lord (Stocking and Lord, 1983). The Stocking and Lord procedure is based on determining the linear equating constants, M1 and M2, that minimize the difference between two test characteristic curves, such that, for a suitable group of examinees, the average squared difference between true-score estimates is as small as possible.

## Growth

The CELDT scale was established using data from the initial field test conducted in the fall of 2000, and modified using data from the 2001 operational administration (Form A). New items have been developed each year, field tested with anchor items, and their item parameters placed on the scale developed from the 2001-2002 Edition (Form A) in order to preserve the validity of the cut scores that had been established by standard setting committees in the spring of 2001. These procedures allow reasonable comparisons of the results from each year.

The Annual Assessment mean scores overall have shown an increase each year for all grades until the 2004-2005 administration. The 2005-2006 Edition (Form E) administration showed more variable growth patterns across the grades. Figures 1-4 illustrate these patterns. Mean scale scores and standard deviations are reported in Appendix B.

Note that the annual data does not include Initial Identification data and therefore do not include the lowest scoring students who often show substantial growth in their first month in the school year. As illustrated in Table 7 as compared to Table 5, there was a much larger standard deviation for the Initial Identification group.

Proficiency for CELDT is defined as an Overall score of Early Advanced or higher, and each skill area proficiency level (Listening/Speaking, Reading, Writing) as Intermediate or higher. The percent of California English Learners who attained English proficiency has increased in each grade span each year, as shown in Table 10. However, between the 2004-2005 and 2005-2006 Editions (Forms D and E), overall percent English Proficient has shown smaller changes, between two and four percentage points different between the two forms. For the tables and figures on the following pages, proficiency in a skill area is defined as a skill area score of Early Advanced or higher.

**Table 10 Percent English-Proficient Students on the CELDT 2001-2005 (Forms A-E) Annual Assessment**

Year	Grade Spans				All Grades K-12
	K-2	3-5	6-8	9-12	
2005	31.3	40.9	56.8	64.1	46.8
2004	28.7	37.0	54.0	62.5	43.9
2003	28.8	34.2	47.4	54.9	39.7
2002	21.7	25.1	39.5	46.7	31.5
2001	14.9	16.8	30.0	44.4	24.4

Percent proficiency by grade and skill area, including Overall, is shown for each administration year in Tables 11-15 and is illustrated in Figures 1-4.

**Table 11 Proficiency by Grade and Grade Span for 2001-2002 Edition (Form A), Annual Assessment Data**

## **Appendices**

**Appendix A** 2005-2006 Edition (Form E) Item Maps

Appendix A provides booklet numbers for all items across the forms of CELDT 2005-2006 Edition (Form E). The Sequence Number is used for other alignments, such as those in Appendix H. Both operational and field items are included here. Common linking items will be reported in the technical report for the 2006–2007 Edition (Form F) of the CELDT.

\* N-count for Grade Span K-2 is 264,223 overall, but for Reading and Writing is administered to only Grade 2 (N=20,328).

## Appendix C Skill Area Correlations

The following tables detail simple statistics and skill-area correlations by grade span, for both Annual Assessment and Initial Identification data. All analyses shown are based on scale scores.

### Annual Assessment Data

#### Grade Span K-2: Grade 2

##### *Simple Statistics*

Skill Area	N*	Mean	Std Dev	Minimum	Maximum
Listening/ Speaking	156995	535.06	58.49	220	710
Reading	156995	454.45	49.82	340	630
Writing	156995	477.40	57.18	280	640

\*Please note that for grade span K-1, data are shown for only grade 2; kindergarten and grade 1 are not administered the Reading and Writing tests, and so do not have data to calculate correlations.

##### *Pearson Correlation Coefficients*

	Listening*	Speaking	Reading	Writing
Listening	1.00	0.42	0.39	0.40
Speaking	0.42	1.00	0.34	0.38
Reading	0.39	0.34	1.00	0.67
Writing	0.40	0.38	0.67	1.00

\*In the administration of the 2005-2006 Edition (Form E), the skill areas of Listening and Speaking were administered separately.

#### Grade Span 3-5

##### *Simple Statistics*

Skill Area	N	Mean	Std Dev	Minimum	Maximum
Listening/ Speaking	438445	525.68	60.90	220	710
Reading	438445	495.69	54.29	340	640
Writing	438445	513.81	55.64	280	690

##### *Pearson Correlation Coefficients*

	Listening*	Speaking	Reading	Writing
Listening	1.00	0.44	0.56	0.49
Speaking	0.44	1.00	0.47	0.43
Reading	0.56	0.47	1.00	0.75
Writing	0.49	0.43	0.75	1.00

\*In the administration of the 2005-2006 Edition (Form E), the skill areas of Listening and Speaking were administered separately.

**Annual Assessment Data (continued)****Grade Span 6-8***Simple Statistics*

<b>Skill Area</b>	<b>N</b>	<b>Mean</b>	<b>Std Dev</b>	<b>Minimum</b>	<b>Maximum</b>
Listening/ Speaking	298368	538.31	64.94	220	710
Reading	298368	519.34	50.92	340	650
Writing	298368	528.10	52.07	280	700

*Pearson Correlation Coefficients*

	<b>Listening*</b>	<b>Speaking</b>	<b>Reading</b>	<b>Writing</b>
<b>Listening</b>	1.00	0.36	0.51	0.47
<b>Speaking</b>	0.36	1.00	0.42	0.42
<b>Reading</b>	0.51	0.42	1.00	0.68
<b>Writing</b>	0.47	0.42	0.68	1.00

\*In the administration of the 2005-2006 Edition (Form E), the skill areas of Listening and Speaking were administered separately.

**Grade Span 9-12***Simple Statistics*

<b>Skill Area</b>	<b>N</b>	<b>Mean</b>	<b>Std Dev</b>	<b>Minimum</b>	<b>Maximum</b>
Listening/ Speaking	266873	537.69	61.67	220	710
Reading	266873	539.88	53.75	340	650
Writing	266873	531.40	53.56	280	700

*Pearson Correlation Coefficients*

	<b>Listening*</b>	<b>Speaking</b>	<b>Reading</b>	<b>Writing</b>
<b>Listening</b>	1.00	0.37	0.58	0.50
<b>Speaking</b>	0.37	1.00	0.43	0.40
<b>Reading</b>	0.58	0.43	1.00	0.68
<b>Writing</b>	0.50	0.40	0.68	1.00

\*In the administration of the 2005-2006 Edition (Form E), the skill areas of Listening and Speaking were administered separately.

### Initial Identification Data

#### **Grade Span K-2: Grade 2\***

##### *Simple Statistics*

<b>Skill Area</b>	<b>N</b>	<b>Mean</b>	<b>Std Dev</b>	<b>Minimum</b>	<b>Maximum</b>
Listening/ Speaking	20328	462.17	145.01	220	710
Reading	20328	431.43	69.17	340	630
Writing	20328	427.36	101.46	280	640

\*Please note that for Grade Span K-2, data are shown for only grade 2; kindergarten and grade 1 are not administered the Reading and Writing tests, and so do not have data to calculate correlations.

##### *Pearson Correlation Coefficients*

*Appendix F: Scale Score Distributions*

Scale Score	Frequency	Percent	Cumulative Frequency	Cumulative Percent
687	13	0.00	438445	100.00

Note. \*Because CELDT uses the number-correct method of scoring, only certain scale scores are associated with particular raw scores. When the skill area scale scores are then combined to produce the Overall score distribution, certain scale scores will appear more often than others.

692	20	0.01	298368	100.00

Note. \*Because CELDT uses the number-correct method of scoring, only certain scale scores are associated with particular raw scores. When the skill area scale scores are then combined to produce the Overall score distribution, certain scale scores will appear more often than others.

*Appendix F: Scale Score Distributions*

Note. \*Because CELDT uses the number-correct method of scoring, only certain scale scores are associated with particular raw scores. When the skill area scale scores are then combined to produce the Overall score distribution, certain scale scores will appear more often than others.

\*The operational item number is equivalent to the Sequence Number in Appendix A: 2005-2006 Edition (Form E) Item Map; refer to the 2005-2006 Edition (Form E) Item Map to determine the corresponding book item number.

\*\*K-2 Listening DCR items, items 10-20, are individually administered. If students do not respond to the first three items, teachers are instructed to skip the remaining DCR items. This may account for the increase in percent omit reported in the table above.

\*The operational item number is equivalent to the Sequence Number in Appendix A: 2005-2006 Edition (Form E) Item Map; refer to the 2005-2006 Edition (Form E) Item Map to determine the corresponding book item number.

\*\*For the 2005-2006 Edition (Form E) data, all omits and blanks were treated as condition codes and given a Score Point of zero.

\*\*\*The alphas noted here indicate the reliability of the test with that particular constructed response item removed.

\*The operational item number is equivalent to the Sequence Number in Appendix A: 2005-2006 Edition (Form E) Item Map; refer to the 2005-2006 Edition (Form E) Item Map to determine the corresponding book item number.

\*\*For the 2005-2006 Edition (Form E) data, all omits and blanks were treated as condition codes and given a Score Point of zero.

\*\*\*The alphas noted here indicate the reliability of the test with that particular constructed response item removed.

Operational Item Numbers 20-24 are Annual Assessment Data CR Items

MC=Multiple Choice

CR=Constructed Response with Number of Score Point Options

\*The operational item number is equivalent to the Sequence Number in Appendix A: 2005-2006 Edition (Form E) Item Map; refer to the 2005-2006 Edition (Form E) Item Map to determine the corresponding book item number.

\*The operational item number is equivalent to the Sequence Number in Appendix A: 2005-2006 Edition (Form E) Item Map; refer to the 2005-2006 Edition (Form E) Item Map to determine the corresponding book item number.

\*\*For the 2005-2006 Edition (Form E) data, all omits and blanks were treated as condition codes and given a Score Point of zero.

\*\*\*The alphas noted here indicate the reliability of the test with that particular constructed response item removed.

**Appendix I** 2005-2006 Edition (Form E) Comparison of Annual Assessment versus Initial Identification Item Difficulty

## Appendix J Item-Type Correlations

The following tables detail correlations between multiple choice (MC), dichotomous constructed response (DCR), and constructed response (CR) items by grade span for Annual Assessment data.

### Descriptive Statistics

Skill Area	Grade Span	N	Item Type**	Mean Score***	SD	Maximum Score
Listening*	K-2	322939	DCR	8.40	2.62	11
			MC	7.15	1.87	9
	K-2	322939	CR	5.06	2.11	8
			DCR	13.34	3.99	17
Speaking	3-5	438445	CR	11.69	3.73	16
			DCR	9.60	2.25	13
	6-8	298368	CR	12.77	3.29	16
			DCR	10.31	2.89	13
	9-12	266873	CR	6.48	1.86	16
			DCR	9.17	3.38	13
	K-2: Grade 2	156995	CR	6.90	2.34	12
			MC	5.58	6.51	20
Writing	3-5	438445	CR	8.51	2.24	12
			MC	14.15	3.95	20
	6-8	298368	CR	8.88	1.89	12
			MC	14.61	3.93	20
	9-12	266873	CR	9.00	1.85	12
			MC	15.15	4.13	20

\* Listening had more than one item type in Grade Span K-2 only.

\*\* DCR = dichotomous constructed response; MC = multiple choice; CR = constructed response

\*\*\* All analyses are based on raw scores.

**Item-Type Correlations**

Skill Area	Grade Span	Item Type**		Pearson Correlation***
Listening*	K-2	DCR	MC	0.57
	K-2	CR	DCR	0.67
Speaking	3-5	CR	DCR	0.63
	6-8	CR	DCR	0.73
	9-12	CR	DCR	0.71
	K-2: Grade 2	CR	MC	0.69
Writing	3-5	CR	MC	0.65
	6-8	CR	MC	0.62
	9-12	CR	MC	0.59

\* Listening had more than one item type in Grade Span K-2 only.

\*\* DCR = dichotomous constructed response; MC = multiple choice;

CR = constructed response

\*\*\* Two-tailed

**Appendix O Test Development Documentation****Item Selection Specifications for the CELDT 2005–2006 (Form E) Operational Test****CALIFORNIA ENGLISH LANGUAGE DEVELOPMENT TEST (CELDT)  
TEST DESIGN AND DEVELOPMENT**

**Listening:** Assesses students' receptive skills vital for effectively processing information presented orally in English. The Listening test consists of these subtests:

*Following Oral Directions:* Identify classroom-related nouns and verbs, prepositions; understand relationship of words—do not have to read or reconfigure the direction to show aural comprehension.

*Teacher Talk:* Comprehend important details, make high-level summary, understand classroom directions and common contexts.

*Extended Listening Comprehension:* Follow the thread of a story, dialogue, and/or a presentation of ideas; extract more details, pick out what is important, use inference; listen to learn.

**Speaking:** Assesses students' productive skills necessary for communicating in both social and academic settings. The Speaking test consists of these subtests:

*Oral Vocabulary:* Elicits single word or short phrase. Assesses simple to complex vocabulary, especially academic and classroom vocabulary.

*Speech Functions (3-12 only):* Elicits one declarative or interrogative statement. Assesses formation of response appropriate to situation. Focuses on question formation.

*Choose and Give Reasons:* Elicits two sentences or complete thoughts. Assesses independent clause formation and ability to make rudimentary explanations or persuasive statements.

*4-Picture Narrative:* Elicits paragraph-length story. Assesses vocabulary, sentence formation, ability to describe, use transitions, use past tense, sustain ideas on a topic, show fluency.

**Reading:** Assesses students' receptive skills of written language required to process information presented in written materials in English.

*Word Analysis:* Initial, medial, final sounds; rhyming, syllables, affixes, root word.

*Fluency and Vocabulary:* Word-to-picture match, multimeaning words, synonyms, antonyms, phrasal verbs, common idioms, modified cloze.

*Reading Comprehension/Literary Analysis:* Follow the thread of a story or informational passage; extract meaningful details, pick out what is important; determine main idea, author purpose, cause and effect; read idioms; determine setting, character, theme; extend/apply to new situations; use inference; read to learn.

**Writing:** Assesses students' productive skills in written language critical for communication of ideas and assignments in English.

*Grammar and Structure:* Grammar, prepositions, plurals, apostrophes, pronouns, possession; auxiliary verbs, interrogatives, comparatives.

*Writing Sentences:* Sentence formation, use of prepositional phrases, compound and complex structures, descriptive language.

*Writing Short Compositions:* Sentence formation, paragraph writing, composition structure, transitions; descriptive, expository, or persuasive writing; ability to sustain a topic, show fluency; spelling and mechanics.

CR = Constructed Response

CR1, CR2, CR3, CR4 = 1-, 2-, 3-, and 4-point Constructed Response items, respectively

**Research Specifications for the Construction of CELDT Operational 2005-2006  
Edition (Form E)  
Listening & Speaking**

The construction of one operational form, 2005-2006 Edition (Form E), for the California English Language Development Test (CELDT) requires fulfillment of content (subtest) category quotas, as well as statistical/psychometric requirements specified below. Content specifications will be determined from the operational test specifications. Test validity requires that content coverage adhere to test specifications.

**Selecting items from the Fall 2004 Field Test Pool:**

Item Statistics	Criterion
Information	Avoid low Info items
Location	Should span the scale, but need a little bit more items with location around the Early Advanced Cut.
Proportion of Maximum Score (p-max)	Between .30 and .90
Item-Total Correlations or Point Biserial correlations	>.15
Fit	Minimize the number of poor-fitting items (i.e., Fit='0')
DIF (Bias)	Avoid items with Bias.

**Form Selection Considerations**

The basic method is to view the TCC curves and the SE curves of Operational 2005-2006 Edition (Form E) (using ItemWin) and to compare the curves with Operational Form D. It is recommended that Form D items be used as the Reference Set. The SE curves should bottom out between 430 and 530, if possible. Summary of the selections should be examined and provided to Research.

**Material Submission to Research**

Please provide the following material to the Research Monitor, along with the completed submission:

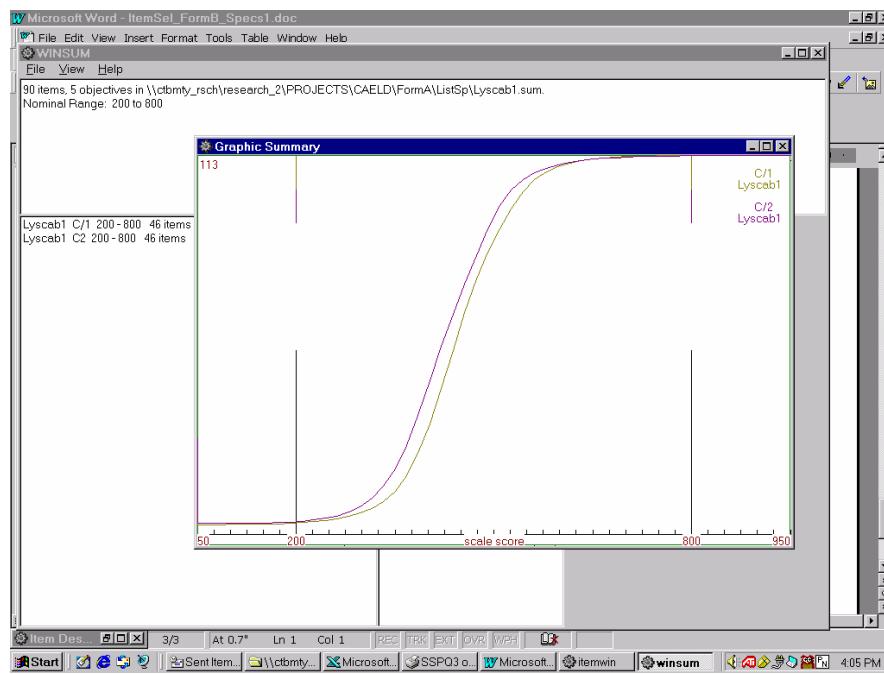

- A cover sheet including the following information: 1) your name, 2) date of the selection, 3) grade span level, 4) CELDT Listening & Speaking test specification, 5) test map of your 2005-2006 Edition (Form E) selection (i.e., tables of Strand or Objective and item type representation for your selection), and 6) a signature of approval from a Content Lead.
- Identification of any items with misfit, bias flags, and reasons for including those items
- A listing of the items in the forms, sorted in order of Item.
- A listing of the items in the forms, sorted in order of ascending Location.
- A listing of the items in the forms, sorted in order of Information.
- A listing of the items in the forms, sorted in order of Objectives.
- Plots of TCC and SE curves.
- TCC Summary and Summary Report.
- Electronic copy of the item.

### 4) Summary Report

## Item Development and Review Procedures

### Internal Item Reviews

After the items have been written at the item writer workshops and/or submitted subsequent to the workshops, CTB employed a series of internal reviews that is extensive and complete. These reviews enable the assessment specialists to evaluate and verify the overall quality of the test items before they are prepared for presentation to the CDE and the CELDT content and bias/sensitivity review committees.

The process also assures that items are being developed to meet the CTB criteria for excellence.

The review process proposed for the CELDT program included:

- an internal content review
- an internal editorial review
- an internal bias and sensitivity review

Throughout this multi-step item review process, the Development Team's assessment specialists evaluated the importance of the information being assessed, the item's match to the standards, the item's appropriateness to the population being assessed, and the implications for instruction. Many test items were strengthened considerably in the internal review process, improving the match between the measurement goal and the measurement task, as well as the overall clarity of the item. If an item were judged to measure trivial information, to be imprecisely related to the content standards, to be developmentally inappropriate, or to provide inappropriate models for instruction, it was revised or eliminated early in this rigorous review process.

Every item received at least two reviews by the assessment specialists, to ensure the following:

- Match of each item to the identified ELD standard and construct
- Relevance of each item as the item relates to the purpose of the test
- Match of each item to the principles of good, quality item development
- Appropriateness of the difficulty level of the items
- Accuracy of content presented in the item
- Appropriateness of any graphics artwork and figures

After evaluating each item against these criteria, the reviewers accepted the item as written, suggest revisions, or recommend that the item be discarded. The reviews also ensured that the test items are in compliance with the style guidelines, as well as CELDT style requirements.

### *Internal Editorial Review*

After the designated assessment specialists reviewed each item, specially trained editors reviewed each item in preparation for review by the CDE and the CELDT committees. The editors checked each item for clarity, correctness of language, appropriateness of language for the grade level, adherence to style guidelines, and conformity with acceptable item-writing practices.

*Internal Bias and Sensitivity Review*

Prior to external bias and sensitivity review, CTB conducted an internal review using trained staff. This review was conducted by CTB staff members. These staff members have been trained to identify and eliminate questions that contain content or wording that could be construed as potentially offensive to or biased against members of specific ethnic, racial, or gender groups. These trained staff members review each item before it is prepared for committee review. Again, items that did not meet the criteria were revised or discarded. CTB acknowledges that all items written for this project remain the property of the CDE, whether or not the items ultimately proved usable for the CELDT program.

## Proficiency Level Summary Report

School: WESTPARK

Grade: 1

### ANNUAL ASSESSMENT

#### Purpose

This report summarizes the number and percentage of students for the skill areas and overall at each of the five English language proficiency levels. This information may be used to determine overall performance and identify areas of strength and need.

Simulated Data

Proficiency Levels	Listening and Speaking	Reading	Writing	OVERALL
<b>Advanced</b>	5% 1 Student			5% 1 Student
<b>Early Advanced</b>	18% 4 Students			18% 4 Students
<b>Intermediate</b>	68% 15 Students			68% 15 Students
<b>Early Intermediate</b>	9% 2 Students	NOT ADMINISTERED AT THIS GRADE		9% 2 Students
<b>Beginning</b>	0% 0 Students			0% 0 Students
<b>Total Number of Students</b>	22	0	0	22
<b>Mean Scale Score</b>	510.0	0	0	514.2
<b>Standard Deviation</b>	29.5	0	0	21.8

Students meeting CELDT criteria for reclassification review: 4\*

### Observations

Proficiency level scores provide a description of the competency demonstrated by the students in the skill areas (Listening/Speaking, Reading, and Writing) assessed by the California English Language Development Test.

Scores that fall within a proficiency level indicate mastery of the majority of skills for that level and the levels below, as

described on the back of the report.

A student may demonstrate competence in some of the skills at higher levels of proficiency, but not enough to have reached the next level. By mastering the skills at the higher levels of proficiency, students can further develop their English language proficiency.

\*CELDT review criteria for reclassification: Score must be at least "Early Advanced" overall and at least "Intermediate" in all skill areas.

Test Date: 2005-06 Administration

CDS#: 12-12345-1234567

District: WESTMINSTER

County: ORANGE

State: CALIFORNIA

## Proficiency Level Summary Report

School: WESTPARK

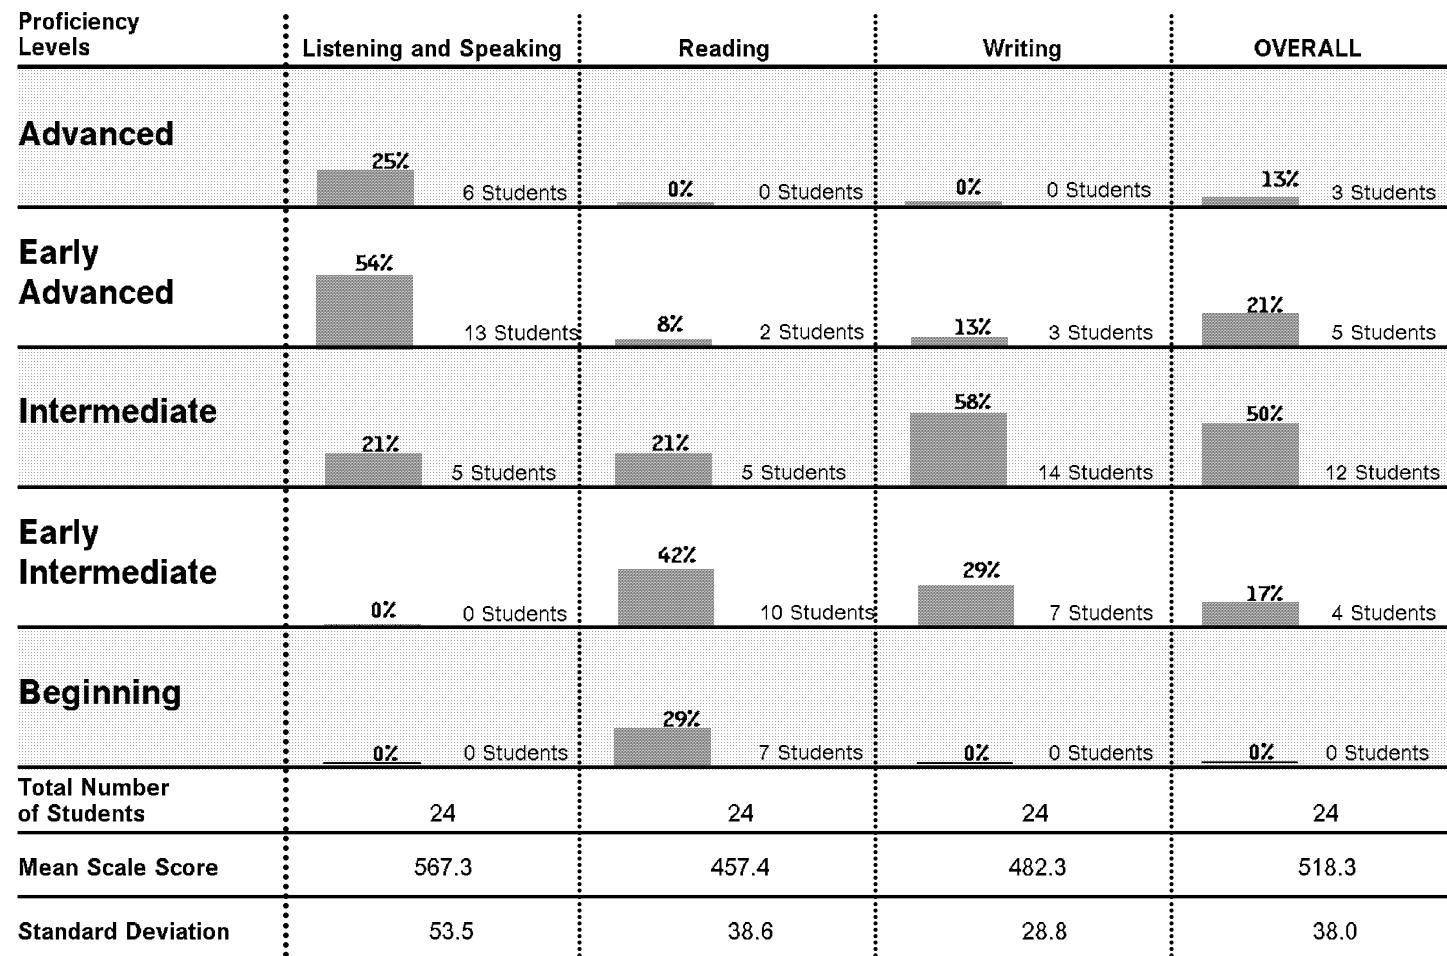

Grade: 2

## Student Proficiency Level Report

SANDY GRIMMS

Grade: 1

### ANNUAL ASSESSMENT

#### Purpose

This report shows the English language development proficiency levels that a student demonstrated on the CELDT. It is one source of information that teachers can use in conferences with parents, and to plan instruction for individual students. The test results are to be added to a student's cumulative record, and parents are to be notified of test results.

#### Simulated Data

Birthdate: 04/19/98

Special Codes:

ABCDEFGHIJKLMNPQRST

9000017384.....

Test Date: 09/14/2005

2005-06 Administration

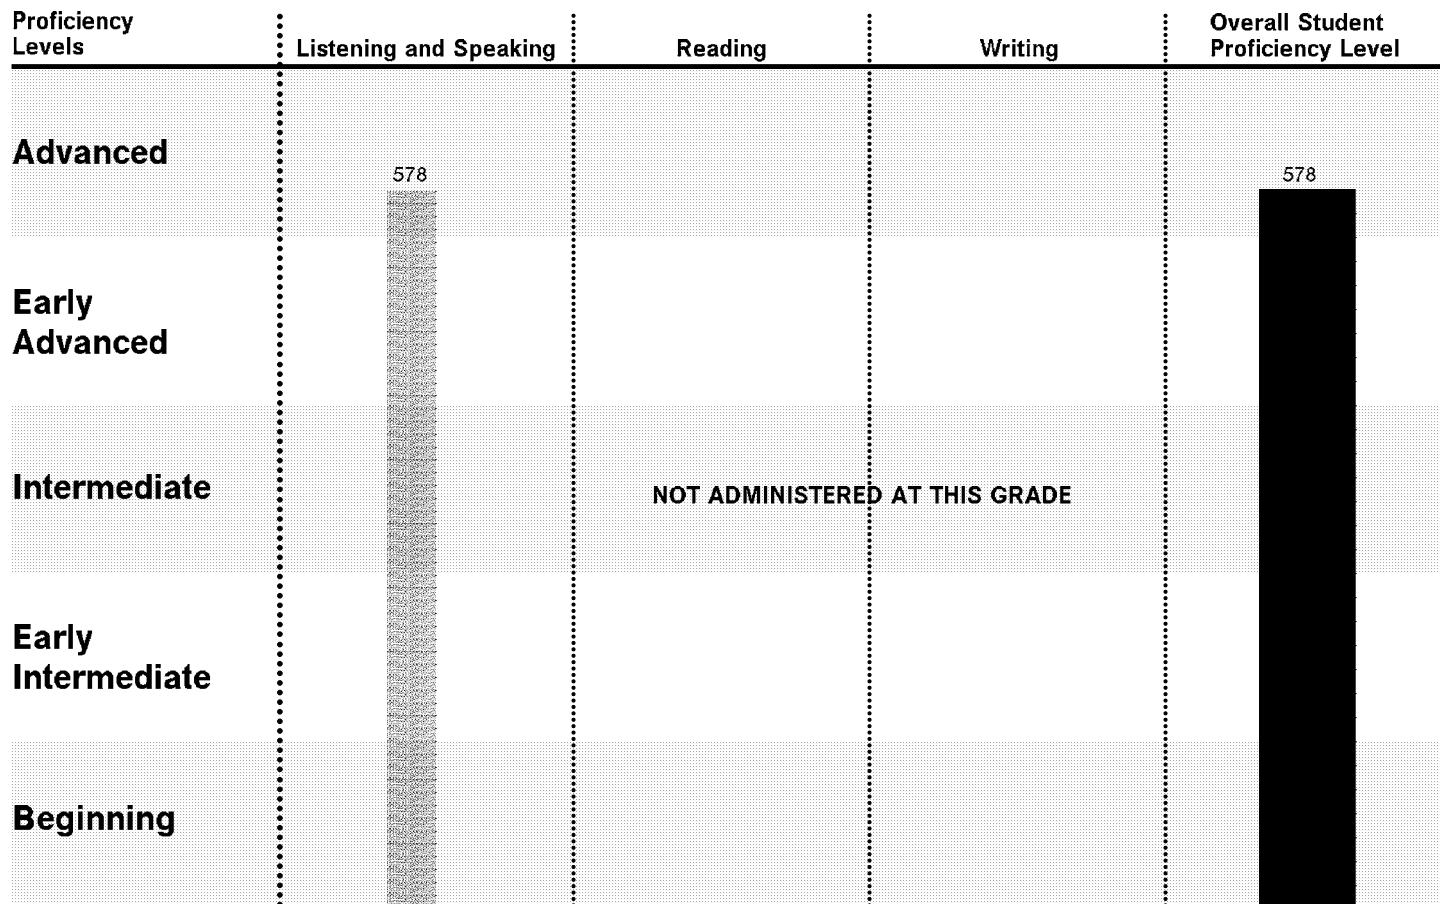

CDS#: 12-12345-1234567

School: MCKINLEY

District: WESTMINSTER

County: LOS ANGELES CO

State: CALIFORNIA

#### Observations

The height of the bars in the graph above represents the performance by the student on the California English Language Development Test (CELDT) in each skill area (Listening/Speaking, Reading, and Writing) and as an overall proficiency level. Districts should use the CELDT overall proficiency level as a primary indicator of English proficiency.

Scores that fall within a proficiency level indicate that the

student can display the majority of skills for that level and the levels below, as described on the back of the report. A student may demonstrate competence in some of the skills at higher levels of proficiency, but not enough to have reached the next level.

In order to further develop English language proficiency, a student needs to master the skills at the higher levels of proficiency.

## Student Proficiency Level Report

LARRY PEEBLES

Grade: 2

### ANNUAL ASSESSMENT

## Proficiency Level Summary Report

School: WESTPARK

Grade: KG

### INITIAL IDENTIFICATION

#### Purpose

This report summarizes the number and percentage of students for the skill areas and overall at each of the five English language proficiency levels. This information may be used to determine overall performance and identify areas of strength and need.

Simulated Data

Proficiency Levels	Listening and Speaking	Reading	Writing	OVERALL
<b>Advanced</b>	5% 1 Student			5% 1 Student
<b>Early Advanced</b>	18% 4 Students			18% 4 Students
<b>Intermediate</b>	68% 15 Students			68% 15 Students
<b>Early Intermediate</b>	9% 2 Students	NOT ADMINISTERED AT THIS GRADE		9% 2 Students
<b>Beginning</b>	0% 0 Students			0% 0 Students
<b>Total Number of Students</b>	22	0	0	22
<b>Mean Scale Score</b>	510.0	0	0	514.2
<b>Standard Deviation</b>	29.5	0	0	21.8

Students meeting CELDT criteria for reclassification review: 4\*

### Observations

Proficiency level scores provide a description of the competency demonstrated by the students in the skill areas (Listening/Speaking, Reading, and Writing) assessed by the California English Language Development Test.

Scores that fall within a proficiency level indicate mastery of the majority of skills for that level and the levels below, as

described on the back of the report.

A student may demonstrate competence in some of the skills at higher levels of proficiency, but not enough to have reached the next level. By mastering the skills at the higher levels of proficiency, students can further develop their English language proficiency.

\*CELDT review criteria for reclassification: Score must be at least "Early Advanced" overall and at least "Intermediate" in all skill areas.

Test Date: 2005-06 Administration

CDS#: 12-12345-1234567

District: WESTMINSTER

County: ORANGE

State: CALIFORNIA

## Student Proficiency Level Report

SANDY GRIMMS

Grade: KG

### INITIAL IDENTIFICATION

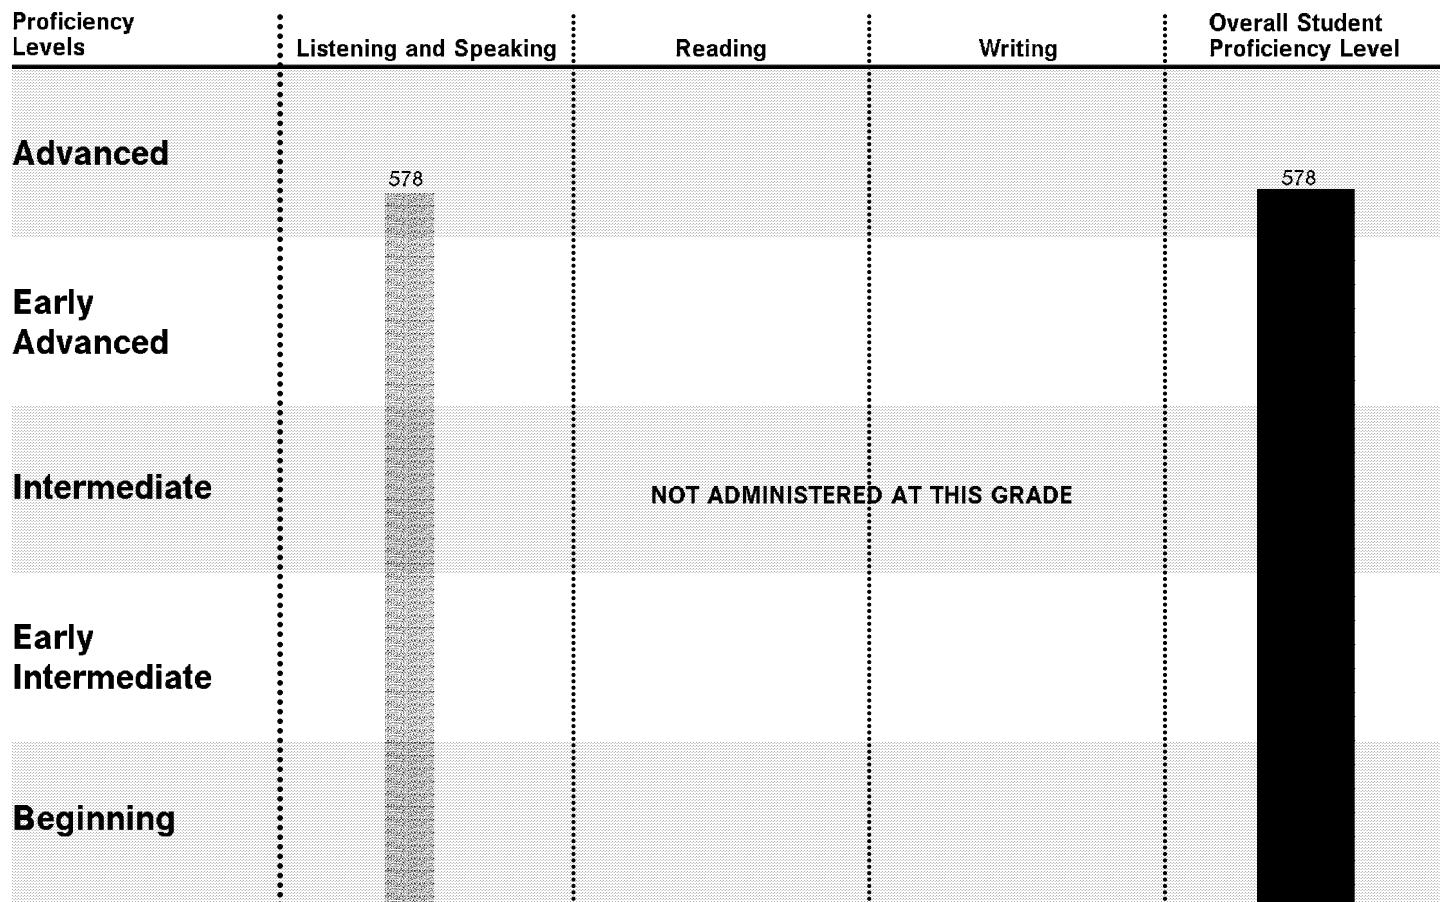

#### Purpose

This report shows the English language development proficiency levels that a student demonstrated on the CELDT. It is one source of information that teachers can use in conferences with parents, and to plan instruction for individual students. The test results are to be added to a student's cumulative record, and parents are to be notified of test results.

Simulated Data

Birthdate: 04/19/99  
Special Codes:  
ABCDEFGHIJKLMNOPQRST  
9000017384.....

Test Date: 09/14/2005  
2005-06 Administration  
CDS#: 12-12345-1234567  
School: MCKINLEY  
District: WESTMINSTER  
County: ORANGE  
State: CALIFORNIA

### Observations

The height of the bars in the graph above represents the performance by the student on the California English Language Development Test (CELDT) in each skill area (Listening/Speaking, Reading, and Writing) and as an overall proficiency level. Districts should use the CELDT overall proficiency level as a primary indicator of English proficiency.

Scores that fall within a proficiency level indicate that the

student can display the majority of skills for that level and the levels below, as described on the back of the report. A student may demonstrate competence in some of the skills at higher levels of proficiency, but not enough to have reached the next level.

In order to further develop English language proficiency, a student needs to master the skills at the higher levels of proficiency.

## Student Proficiency Level Report

# California English Language Development Test Proficiency Standards

**Grades K-1  
Proficiency  
Levels**

## **Advanced**

Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and academic demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are necessary.

### **Listening and Speaking Standards**

Students who perform at this level on the CELDT typically understand and use more extensive vocabulary and more complex syntax, with minor problems in comprehension or communication; understand and follow all simple oral directions; tell a coherent story based on a picture sequence, clearly expressing its main point using complete sentences, without errors that significantly hinder communication, though perhaps without giving much elaboration.

## **Early Advanced**

Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in other academic areas.

Students who perform at this level on the CELDT typically understand and use a somewhat more extensive vocabulary and simple syntax, with occasional problems in comprehension or communication; understand and follow many simple oral directions; tell a somewhat coherent story based on a picture sequence, but without clearly expressing its main point, using some complete sentences with gaps in vocabulary and errors that hinder communication.

## **Intermediate**

Students performing at this level of English language proficiency begin to tailor the English language skills they have been taught to meet their immediate communication and learning needs.

Students who perform at this level on the CELDT typically understand and use simple vocabulary and syntax, with significant gaps in comprehension and frequent errors in communication; understand and follow a few simple oral directions; tell a story that is not coherent based on a picture sequence, using phrases and incomplete sentences with scant vocabulary and numerous errors that hinder communication.

## **Early Intermediate**

Students performing at this level of English language proficiency start to respond with increasing ease to more varied communication tasks.

Students who perform at this level on the CELDT typically understand and use very basic vocabulary, but make frequent errors, with severely limited comprehension and communication; understand and attempt to follow a few simple oral directions; tell part of a story, using simple words and phrases.

## **Beginning**

Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They may be able to respond to some communication tasks.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may understand or attempt to use a few basic words, with severely limited comprehension and communication; attempt to follow simple oral directions, with severely limited success.

Test Date: 2005-06 Administration

# California English Language Development Test Proficiency Standards

## Grade 2 Proficiency Levels

### **Advanced**

Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and academic demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are necessary.

#### **Listening and Speaking Standards**

Students who perform at this level on the CELDT typically understand and use more extensive vocabulary and more complex syntax, with occasional minor problems in comprehension or communication; understand and follow all simple oral directions; tell a coherent story based on a picture sequence, using complete and fluent sentences that contain only minor errors, though perhaps without giving much elaboration.

#### **Reading Standards**

Students who perform at this level on the CELDT typically match spoken words that have difficult beginning and medial sounds to printed words; use irregular plurals; use context to identify synonyms and words that have multiple meanings; read a more complex story and answer increasingly difficult questions that involve sequencing, generalizing, drawing conclusions, and making simple predictions.

#### **Writing Standards**

Students who perform at this level on the CELDT typically identify a complex verb tense; write complete sentences that contain no grammatical, syntactical, or mechanical errors and that are appropriate to a picture prompt; write a short story in response to sequenced pictures (the story contains fluent sentences, well-organized ideas, accurate transitions, precise vocabulary, and no significant grammatical errors).

### **Early Advanced**

Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in other academic areas.

Students who perform at this level on the CELDT typically understand and use somewhat more extensive vocabulary and simple syntax, with minor problems in comprehension or communication; understand and follow most simple oral directions; tell a somewhat coherent story based on a picture sequence, clearly expressing its main point in complete sentences, without errors that significantly hinder communication, but without giving much elaboration.

Students who perform at this level on the CELDT typically match more difficult vocabulary words to pictures; use regular plurals and identify the number of syllables in a word; use context clues to complete sentences in a short passage with words appropriate to the topic; answer more difficult questions that involve sequencing, generalizing, drawing conclusions and making simple predictions, after reading a story.

Students who perform at this level on the CELDT typically demonstrate use of contractions, possessives, superlatives, regular plurals, compound subjects, prepositions, and articles; write complete sentences that contain no grammatical, syntactical, or mechanical errors and that are appropriate to a picture prompt; write a short story in response to sequenced pictures; The story contains fluent sentences, clear ideas, and accurate transitions.

### **Intermediate**

Students performing at this level of English language proficiency begin to tailor the English language skills they have been taught to meet their immediate communication and learning needs.

Students who perform at this level on the CELDT typically understand and use simple vocabulary and syntax, with occasional gaps in comprehension and communication; understand and follow many simple oral directions; tell a story that is not coherent based on a picture sequence, but without clearly expressing its main point, using some complete sentences with gaps in vocabulary and errors that hinder communication.

Students who perform at this level on the CELDT typically match similar sound patterns and identify compound words; recognize common abbreviations; use the context of a sentence to fill in the blanks with the correct words; recall details and answer literal questions, after reading a story.

Students who perform at this level on the CELDT typically begin to use standard writing conventions, such as subject and verb agreement, compound subjects, verb tenses, pronouns, irregular verbs, and conjugations; write simple sentences appropriate to a picture prompt (the sentences may contain errors, but these errors do not affect the meaning of the sentences); write a short story by listing events or ideas in response to sequenced pictures (the story may contain repetitive transitional words and errors that do not affect meaning).

### **Early Intermediate**

Students performing at this level of English language proficiency start to respond with increasing ease to more varied communication tasks.

Students who perform at this level on the CELDT typically understand and use basic vocabulary, but make frequent errors, with limited comprehension and communication; understand and follow some simple oral directions; tell a story that is not coherent based on a picture sequence, using phrases and incomplete sentences with scant vocabulary and numerous errors that hinder communication.

Students who perform at this level on the CELDT typically match simple vocabulary words to pictures; hear a word and select its printed form from a choice of similar words; identify contractions and recognize basic semantic categories; recall a few details from simple stories.

Students who perform at this level on the CELDT typically begin to use some standard writing conventions, such as spacing, punctuation, and capitalization; write sentences appropriate to a picture prompt; The sentences include at least one English word spelled correctly, and major errors make the sentences difficult to understand; write a short story by listing events or ideas in response to sequenced pictures (the story contains at least one complete sentence and major errors that make the story difficult to understand).

### **Beginning**

Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They may be able to respond to some communication tasks.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may understand and use a few basic words and phrases, with severely limited comprehension and communication; understand and follow a very few simple oral directions; tell part of a story, using simple words and phrases.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may identify the letter that corresponds to the initial sound of a simple spoken word; match commonly used nouns to pictures; begin to recognize some basic groups of related words; recall minimal details from a simple story.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills or may use a few standard writing conventions; write some isolated English words in response to a picture prompt; attempt to write a short story in response to sequenced pictures. The writing is minimal and contains unrelated fragments.

# California English Language Development Test Proficiency Standards

**Grades 3-5**  
**Proficiency**  
**Levels**

## **Advanced**

Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and academic demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are necessary.

### **Listening and Speaking Standards**

Students who perform at this level on the CELDT typically understand and use extensive vocabulary and complex syntax, without significant problems in comprehension or communication; understand and follow all oral directions; tell a coherent and detailed story based on a picture sequence, using complete and fluent sentences that contain only minor errors.

### **Reading Standards**

Students who perform at this level on the CELDT typically interpret more complex figures of speech; decode words with more difficult beginning or medial sounds; identify root words and synonyms; identify the number of syllables in a word; sequence events, draw inferences, and make predictions and generalizations based on a given text.

### **Writing Standards**

Students who perform at this level on the CELDT typically write a relevant sentence in response to a picture prompt (the sentence has no mechanical or syntactical errors); write a well-organized paragraph that contains relevant details and accurate transitions in response to sequenced pictures and a sentence starter (the paragraph may contain a few minor errors in grammar and mechanics).

## **Early Advanced**

Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in other academic areas.

Students who perform at this level on the CELDT typically understand and use fairly extensive vocabulary and fairly complex syntax, with occasional minor problems in comprehension or communication; understand and follow most complex, multi-step oral directions; tell a coherent story based on a picture sequence, clearly expressing its main point, using complete sentences without errors that significantly hinder communication, but without giving much elaboration.

Students who perform at this level on the CELDT typically match complex vocabulary words to pictures; recognize synonyms/antonyms; use context clues and inferences to select the correct word to complete a short passage or story; distinguish between fact and opinion, draw more subtle inferences from a text, and interpret some common figures of speech based on a given text.

Students who perform at this level on the CELDT typically use their knowledge of grammar and mechanics to identify the appropriate word to complete a complex sentence; write a paragraph that clearly communicates a series of events or ideas based on sequenced pictures and a sentence starter (the paragraph has details connected by repetitive transitional words, and may contain errors in grammar and mechanics).

## **Intermediate**

Students performing at this level of English language proficiency begin to tailor the English language skills they have been taught to meet their immediate communication and learning needs.

Students who perform at this level on the CELDT typically understand and use simple vocabulary and syntax, with occasional gaps in comprehension and communication; understand and follow some complex, multi-step oral directions; tell a somewhat coherent story based on a picture sequence, but without clearly expressing its main point, using phrases and incomplete sentences with gaps in vocabulary and errors that hinder communication.

Students who perform at this level on the CELDT typically begin to identify the number of syllables in some words of simple structure; use context clues to select the correct word to complete a short story; match more difficult vocabulary words to pictures; answer factual comprehension questions, identify events, and draw conclusions based on a given text.

Students who perform at this level on the CELDT typically use their knowledge of grammar and mechanics to identify the appropriate word or phrase to complete a simple sentence; write a relevant sentence in response to a picture prompt (the sentence may contain minor errors); write a paragraph based on sequenced pictures and a sentence starter (the paragraph may have a disorganized sequence of events or ideas, but is generally clear).

## **Early Intermediate**

Students performing at this level of English language proficiency start to respond with increasing ease to more varied communication tasks.

Students who perform at this level on the CELDT typically understand and use basic vocabulary and syntax, but make frequent errors, with limited comprehension and communication; understand and follow simple oral directions; tell a story that is not coherent based on a picture sequence, using phrases, scant vocabulary, and numerous errors that hinder communication.

Students who perform at this level on the CELDT typically match vocabulary words to pictures; recognize sound/symbol relationships; use context clues to choose the correct word to complete a sentence; answer some factual comprehension questions, and make inferences after reading a simple text.

Students who perform at this level on the CELDT typically complete a sentence using the appropriate word; respond to a picture prompt by writing words, phrases, or simple sentences that contain at least one English word spelled correctly; write words or phrases based on sequenced pictures and a sentence starter (the response may contain numerous errors that distort meaning).

## **Beginning**

Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They may be able to respond to some communication tasks.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may understand and use basic vocabulary, with severely limited comprehension and communication; understand and follow a very few simple oral directions; tell part of a story, using simple words and phrases.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may match commonly used nouns to pictures; recognize some sound/symbol relationships; begin to recognize some basic groups of related words; recall minimal details from a simple text.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may choose the appropriate word to complete a sentence; attempt to write about a topic, but the response is minimal, and contains some isolated English words.

Test Date: 2005-06 Administration

# California English Language Development Test Proficiency Standards

**Grades 6-8**  
**Proficiency**  
**Levels**

## **Advanced**

Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and academic demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are necessary.

### **Listening and Speaking Standards**

Students who perform at this level on the CELDT typically understand and use extensive vocabulary and complex syntax, without significant problems in comprehension or communication; understand and follow all oral directions; tell a coherent and detailed story based on a picture sequence, using complete and fluent sentences that contain only minor errors.

### **Reading Standards**

Students who perform at this level on the CELDT typically recognize synonyms and antonyms; demonstrate decoding and word-attack skills, such as sound pairs and prefixes; understand complex structures, such as root words, word parts, and grammatical features; synthesize and make predictions; demonstrate understanding of idiomatic expressions.

### **Writing Standards**

Students who perform at this level on the CELDT typically use difficult transitions, conjunctions, and prepositions correctly; respond to a picture prompt by writing complete sentences that are appropriate to the topic and have no syntactical or mechanical errors; write a paragraph that is fluent and contains a clear sequence of events or ideas, precise vocabulary and appropriate transitional words. The paragraph may contain minor errors and one or more non-English words.

## **Early Advanced**

Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in other academic areas.

Students who perform at this level on the CELDT typically understand and use fairly extensive vocabulary and fairly complex syntax, with occasional minor problems in comprehension or communication; understand and follow most complex, multi-step oral directions; tell a coherent story based on a picture sequence, clearly expressing its main point, using complete sentences without errors that significantly hinder communication, but without giving much elaboration.

Students who perform at this level on the CELDT typically identify the correct meaning of a word in a given context; recognize character traits and features of a variety of texts; make inferences and draw conclusions from more challenging reading passages.

Students who perform at this level on the CELDT typically use verb tenses correctly; demonstrate familiarity with idioms and expressions; write complete sentences appropriate to a picture prompt (the sentences may contain minor errors); write a paragraph that contains details and a coherent sequence of events or ideas.

## **Intermediate**

Students performing at this level of English language proficiency begin to tailor the English language skills they have been taught to meet their immediate communication and learning needs.

Students who perform at this level on the CELDT typically understand and use simple vocabulary and syntax, with occasional gaps in comprehension and communication; understand and follow some complex, multi-step oral directions; tell a somewhat coherent story based on a picture sequence, but without clearly expressing its main point, using phrases and incomplete sentences with gaps in vocabulary and errors that hinder communication.

Students who perform at this level on the CELDT typically demonstrate some knowledge of simple synonyms, antonyms and simple root words; recognize the sequence of events in a reading passage; determine the main idea of a simple text; recognize the parts of a book.

Students who perform at this level on the CELDT typically use articles and pronouns correctly; use idiomatic qualifiers; write a sentence in response to a picture prompt (the sentence may contain several errors that interfere with meaning); write a paragraph about a topic, but the paragraph may consist of a disorganized list of events, containing some details and repetitive transitional words.

## **Early Intermediate**

Students performing at this level of English language proficiency start to respond with increasing ease to more varied communication tasks.

Students who perform at this level on the CELDT typically understand and use basic vocabulary and syntax, but make frequent errors, with limited comprehension and communication; understand and follow simple oral directions; tell a story that is not coherent based on a picture sequence, using phrases, scant vocabulary, and numerous errors that hinder communication.

Students who perform at this level on the CELDT typically identify sound/symbol correspondences at the beginning of words; begin to use words in context appropriately; answer literal comprehension questions from a simple story.

Students who perform at this level on the CELDT typically use capitalization and punctuation in abbreviations correctly; attempt to write about a topic, but the response is minimal, containing some isolated English words.

## **Beginning**

Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They may be able to respond to some communication tasks.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may understand and use basic vocabulary, with severely limited comprehension and communication; understand and follow a very few simple oral directions; tell part of a story, using simple words and phrases.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may recognize some sound/symbol correspondences at the beginning of simple words; match commonly used nouns to pictures; recall minimal details from a simple story.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may use capitalization and punctuation in abbreviations; attempt to write about a topic, but the response is minimal.

# California English Language Development Test Proficiency Standards

**Grades 9-12**  
**Proficiency**  
**Levels**

## **Advanced**

Students performing at this level of English language proficiency communicate effectively with various audiences on a wide range of familiar and new topics to meet social and academic demands. In order to attain the English proficiency level of their native English-speaking peers, further linguistic enhancement and refinement are necessary.

### **Listening and Speaking Standards**

### **Reading Standards**

### **Writing Standards**

## **Early Advanced**

Students performing at this level of English language proficiency begin to combine the elements of the English language in complex, cognitively demanding situations and are able to use English as a means for learning in other academic areas.

Students who perform at this level on the CELDT typically understand and use extensive vocabulary and complex syntax, without significant problems in comprehension or communication; understand and follow all oral directions; tell a coherent and detailed story based on a picture sequence, using complete and fluent sentences that contain only minor errors.

Students who perform at this level on the CELDT typically identify and use affixes to infer meaning; infer meaning from more complex vocabulary; sequence stated or implied events of a story; recognize summary statements. Identify cause and effect; identify traits of characters, intended purpose, and other features of a variety of texts.

Students who perform at this level on the CELDT typically recognize adjectives and proper nouns; respond to a picture prompt by writing a complete sentence with no grammatical or syntactical errors; respond to a narrative prompt by writing a paragraph with an organized sequence of events or ideas, details, and precise vocabulary (the paragraph may contain minimal errors and one or more non-English words).

## **Intermediate**

Students performing at this level of English language proficiency begin to tailor the English language skills they have been taught to meet their immediate communication and learning needs.

Students who perform at this level on the CELDT typically understand and use fairly extensive vocabulary and fairly complex syntax, with occasional minor problems in comprehension or communication; understand and follow most complex, multi-step oral directions; tell a coherent story based on a picture sequence, clearly expressing its main point, using complete sentences without errors that significantly hinder communication, but without giving much elaboration.

Students who perform at this level on the CELDT typically recognize words with multiple meanings and root words; derive the meaning of words in a given context; identify details, main ideas, and setting in reading passages; draw simple conclusions about a character in a narrative; use details to make predictions; identify stated and implied themes in literary passages.

Students who perform at this level on the CELDT typically use correct grammar, such as present tense verbs and subject and verb agreement; distinguish among various noun endings; write sentences that are appropriate to the topic (the sentences contain few errors); write a paragraph that contains details and a clear sequence of events.

## **Early Intermediate**

Students performing at this level of English language proficiency start to respond with increasing ease to more varied communication tasks.

Students who perform at this level on the CELDT typically understand and use simple vocabulary and syntax, with occasional gaps in comprehension and communication; understand and follow some complex, multi-step oral directions; tell a somewhat coherent story based on a picture sequence, but without clearly expressing its main point, using phrases and incomplete sentences with gaps in vocabulary and errors that hinder communication.

Students who perform at this level on the CELDT typically demonstrate decoding skills; demonstrate knowledge of antonyms and synonyms; identify the correct meaning of a word in a given context; make logical inferences in narrative passages.

Students who perform at this level on the CELDT typically write at least one complete sentence in response to a picture prompt (the response may contain a few errors in vocabulary, grammar, and/or syntax); respond to a narrative prompt by producing a simple sequence of events or ideas that may be disorganized (they use details and repetitive transitional words).

## **Beginning**

Students performing at this level of English language proficiency may demonstrate little or no receptive or productive English skills. They may be able to respond to some communication tasks.

Students who perform at this level on the CELDT typically understand and use basic vocabulary and syntax, but make frequent errors, with limited comprehension and communication; understand and follow simple oral directions; tell a story that is not coherent based on a picture sequence, using phrases, scant vocabulary, and numerous errors that hinder communication.

Students who perform at this level on the CELDT typically identify the use of simple vocabulary within the context of a short passage; use irregular plurals and words with multiple meanings; identify the number of syllables in a word; identify the sequence of events in a passage.

Students who perform at this level on the CELDT typically recognize correctly written forms of address; use appropriate verb forms when asking a question; write phrases related to the topic that is presented as a sequence of pictures; write at least one complete sentence in response to a narrative prompt (the response may contain serious errors in vocabulary, grammar, and/or syntax).

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may understand and use basic vocabulary, with severely limited comprehension and communication; understand and follow a very few simple oral directions; tell part of a story, using simple words and phrases.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may recognize some sound/symbol relationships; locate information in a simple text.

Students who perform at this level on the CELDT may demonstrate no receptive/productive skills, or may recognize the correct use of capitalization and punctuation in abbreviations; attempt to write about a topic, but the response is minimal and contains some isolated English words.

		<b>2005 Technical Report</b>	<b>Other Documents</b>
<b>4.16 -</b>	Changes in test specifications noted in test manuals Caution against score equivalence	N/A N/A	N/A N/A
<b>4.17 -</b>	Stability of common scale tests		2003-2005 Technical Reports
<b>4.18 -</b>	Re-norming of test to ensure accuracy		Upcoming 2006 Standard Setting
<b>4.19 -</b>	Rationale and procedures for establishing cut scores	Report text	Bookmark Standard Setting TR
<b>4.20 -</b>	Evidence for cut scores and categories	Report text, D1-D2	
<b>4.21 -</b>	Cut-scores enable judges to use own knowledge and experience		2003-2005 Technical Reports

**5. Test Administration, Scoring and Reporting**

<b>5.1 -</b>	Administration follows standardized procedures	Training Video, Examiner's Mnls
<b>5.2 -</b>	Modifications or disruptions of administration or scoring procedures	Test Booklets, Answer Books
<b>5.3 -</b>	Accommodation procedures	Test Coordntr's Mnl, Answer Books
<b>5.4 -</b>	Testing environment: comfort without distraction	Examiner's Mnls
<b>5.5 -</b>	Instructions to test takers: how to respond, equipment explanation	Examiner's Mnls, Test Booklets
<b>5.6 -</b>	Assurance of test score integrity	Training Video, Test Coordntr's Mnl
<b>5.7 -</b>	Test users responsibility for security of test materials	Training Video, Test Coordntr's Mnl

	<b>2005 Technical Report</b>	<b>Other Documents</b>
<b>5.8 –</b> Procedures for scoring Monitor and report frequency of scoring errors Correct systematic scoring error	N/A	Training Video, Scoring Guides N/A
<b>5.9 –</b> Scoring rubrics for human judges Monitoring and documenting adherence to rubrics		Scoring Guides Admin Trainer's Kit
<b>5.10 –</b> Released test materials use simple language Materials include coverage, scores, precision, and common misinterpretations	P3-P32 P3-P32	
<b>5.11 –</b> Computer-prepared interpretations include sources, rationale, and justification	Report text	
<b>5.12 –</b> Group-level info from aggregated test: validity and reliability for aggregate	N/A	N/A
<b>5.13 –</b> Protection of confidentiality for score/identification transmission		Test Coordinators Mnl
<b>5.14 –</b> Corrected score reports sent out for material errors	N/A	N/A
<b>5.15 –</b> Guidelines for test data, test protocol, and technical report retention		Admin Trainer's Kit
<b>5.16 –</b> Guidelines for retention of test records		Admin Trainer's Kit

**6. Supporting Documentation for Tests**

<b>6.1 –</b> Test documents made available to prospective test users	CELDT Contract
<b>6.2 –</b> Test documents complete, accurate, and written for intended audience	P3-P32

## Appendix Q: Standards Compliance

		2005 Technical Report	Other Documents
<b>6.3 –</b>	Rationale for test including recommended use and support Information for score interpretation with caution against misinterpretation	P3-P32	
<b>6.4 –</b>	Intended population and specifications Item pool and scale development procedures Norm population demographic variables and years of data collection	G1-G20 N/A	Scoring Guides Bookmark Standard Setting TR N/A
<b>6.5 –</b>	Statistical descriptions and analyses of scores and validity of interpretation Item level information Cut scores and configural rules Raw and derived scores Normative data Standard Errors  Equating procedures	Report text, D1-D2 Report text Report text, D1-D2 E1-E10 Report text, F1-F22 Report text, N1-N10 Report text, L1-L23, M1-M23	
<b>6.6 –</b>	Test relating to curriculum or material	N/A	N/A
<b>6.7 –</b>	Qualifications required to administer test and interpret scores accurately		Admin Trainer's Kit
<b>6.8 –</b>	Validity for local scoring includes interpretative materials for scores	N/A	N/A
<b>6.9 –</b>	Test documents cite representative sample of studies pertaining to test use	Report text	
<b>6.10 –</b>	For case studies include examples of test taker diversity	N/A	N/A
<b>6.11 –</b>	Score interchangability for multiple methods of administration	N/A	N/A
<b>6.12 –</b>	Computer-generated interpretations include summary of support	N/A	N/A
<b>6.13 –</b>	Documentation amended or revised for test changes		2003-2005 CELDT Materials

<b>6.14 –</b>	All test documents contain copyright or publication date	Back of title page	All Documents
<b>6.15 –</b>	General information for test users and researchers on appropriateness of use General information for guardian consent prior to administration	N/A	Admin Trainer's Kit N/A

**7. Fairness in Testing and Test Use**

<b>7.1 –</b>	Data for each relevant subgroup as well as whole population Subgroup differences in content, scores, response structure or process	G1-G20 N/A	N/A
<b>7.2 –</b>	Construct-irrelevant variance across sub-groups and effect on valid inferences	N/A	N/A
<b>7.3 –</b>	DIF prompts study into test design, content, and format	N/A	N/A
<b>7.4 –</b>	Elimination of offensive content	O9-O12	
<b>7.5 –</b>	Alternate explanations for interpretation of individualized performance	N/A	N/A

*Appendix Q: Standards Compliance*

		<b>2005 Technical Report</b>	<b>Other Documents</b>
<b>7.6 –</b>	Differential prediction of a criterion for sub-groups	N/A	N/A
<b>7.7 –</b>	Elimination of unnecessary reading or linguistic demands	N/A	N/A
<b>7.8 –</b>	Caution against comparability for scores disaggregated by subgroups	N/A	N/A
<b>7.9 –</b>	Policy instruments: inform policymakers of test implications	O1-O2	
<b>7.10 –</b>	Mean difference studies for sub-groups		2003-2004 Form C Tech Report
<b>7.11 –</b>	Mean score differences determine testing model	N/A	N/A
<b>7.12 –</b>	Comparable and equitable treatment for all test takers		Examiner's Mnls

**8. The Rights and Responsibilities of Test Takers**

\* Standards 8.1-8.13 Not Applicable to the 2003-2004 CELDT Administration

**9. Testing Individuals of Diverse Linguistic Backgrounds**

<b>9.1 –</b>	Test practices reduce threats to reliability and validity due to language	Admin Trainer's Kit, Examiner's Mnls
<b>9.2 –</b>	Collect validity evidence for linguistic subgroups with differing test scores	N/A
<b>9.3 –</b>	Test multilingual test taker in most proficient language of available test forms	N/A
<b>9.4 –</b>	Describe in test manual linguistic modifications recommended by publisher	N/A
<b>9.5 –</b>	Non-comparable regular and modified test versions flagged and explained	N/A

		2005 Technical Report	Other Documents
<b>9.6 –</b>	Information for appropriate test use and interpretation for multilingual tests	P3-P24	Test Booklets continues...
<b>9.7 –</b>	Methods of translation and equivalency, including reliability and validity	N/A	N/A
<b>9.8 –</b>	Language usage appropriate to relevant occupation or profession	N/A	N/A
<b>9.9 –</b>	Test comparability for multiple language versions of a test	N/A	N/A
<b>9.10 –</b>	Tests of language proficiency based on range of language features	O3-O5	
<b>9.11 –</b>	Test interpreters fluent in language of test and examiner's native language Interpreters experienced in translating and understand assessment process	N/A N/A	N/A N/A
<b>10. Testing Individuals with Disabilities</b>			
<b>10.1 –</b>	Ensure scores accurately reflect intended construct rather than disability	CDE's Special Accommodations/Modifications for California Statewide Assessments	
<b>10.2 –</b>	Individuals knowledgeable of disabilities modify test and administration	CDE's Special Accommodations/Modifications for California Statewide Assessments	
<b>10.3 –</b>	Pilot test modified tests with examinees with similar disabilities	N/A	N/A
<b>10.4 –</b>	Modifications made for disability and evidence of validity in test manual Caution regarding confidence of score interpretation		Scoring Guides
<b>10.5 –</b>	Documents with modified tests state modifying steps likely to alter validity		Scoring Guides

## Appendix Q: Standards Compliance

		2005 Technical Report	Other Documents
<b>10.6 –</b>	Appropriate times for speeded tests (not multiple of standard time) Fatigue investigated as important factor	N/A N/A	N/A N/A
<b>10.7 –</b>	Effects of modifications for people with various disabilities	N/A	N/A
<b>10.8 –</b>	Responsibilities of administrators for modified forms	CDE's Special Accommodations/Modifications for California Statewide Assessments	
<b>10.9 –</b>	Use of norms appropriate to test purpose	N/A	N/A
<b>10.10 –</b>	Test modifications appropriate for test taker yet maintain validity	CDE's Special Accommodations/Modifications for California Statewide Assessments	continues...
<b>10.11 –</b>	Lacking evidence of comparability, modification info provided to test users		Scoring Guides
<b>10.12 –</b>	Test is not the sole indicator of functioning, use of multiple sources		Scoring Guides

**11. The Responsibilities of Test Users**

\* Standards 11.1-11.24 Not Applicable to the CELDT

**12. Psychological Testing and Assessment**

\* Standards 12.1-12.20 Not Applicable to the CELDT

**13. Educational Testing and Assessment**

- 13.1 –** Intended use of results when mandated by school, district, or state  
Responsibility of mandating authority to monitor impact and consequences

Report text

State responsibility

- 13.2 –** Evidence of test's technical quality for each (if multiple) purpose
